How many photos do I select?

The price of the slideshow includes a maximum of 50 photos. If you would like to use more than 50 photos you may but will be charged \$2 per additional photo.
i.e. for a slideshow of 60 photos you would be charged \$220 for the slideshow plus \$20 for the additional 10 photos equaling \$240 in total.

How many songs do I choose?

40 photos edit well to a 4 minute song, so try to allow 5/6 seconds per photo. If you have 60 photos, you may want to use two 3 minute songs.

We are also able to shorten/lengthen songs to fit.

What is the screenshot?

The screenshot is a photo you select to remain on the screen during the service. This is usually the same photo used for the Order of Service.

Can I order additional copies of the slideshow on DVD?

Yes. Life Memorials will keep your slideshow on file to allow you to order additional copies. They cost \$16.50 each plus postage.

I have created a slideshow, can you put it onto DVD?

Yes. Life Memorials can convert your slideshow to DVD for \$50. We highly recommend you do this to ensure your slideshow plays flawlessly on the day. Powerpoint presentations played from a computer can often go wrong and you don't want to be worried about this on the day.
